ARNAGE WARBMBLOOD STUD

Arnage Warmblood Stud in the Mary Valley in Queensland, specializing in breeding with carefully chosen imported Hanoverian mares.

Combining the best genetics of individually selected stallions suitable for each mare, we are producing foals that are equal to anything found in Europe. The dam line of any horse is equal to, or more important than the stallion line, and we have mares by the best bred stallions available, such as Totilas, Fürstenball, Desperados, Royal Classic, De Niro, Balou du Rouet and Quintender. These are all stallions that competed successfully, and are now producing top performance horses.

We also stand our own successful stallions Fiderfürst and Premonition who are making names for themselves in Dressage and Eventing. Fiderfürst is National Dressage Reserve Elementary and Reserve Medium Champion, and Premonition is an Equestrian Queensland Finalist for Horse of the Year. Come and check out our beautiful foals and yearlings.

www.arnagewarmbloodstud.com.au

ANNWN PARK

Our key objectives are to produce Baroque type Lipizzaner horses that are phenotypical of the breed. They must have breed type, 'noblesse', the trademark Lipizzaner movement & trainability. We do not breed for trends. Our horses are registered and accredited with the Australian Lipizzaner Registry Inc.

The stud was founded in 1999 and at that time was located in Bathurst NSW. Since 2004 the stud has been situated on 30 picturesque acres in Stuart Town, Central Western NSW. Our current stallion, 257 Favory Pallavicina 'Merlin', is an exceptional type within the breed. A highly successful ridden and led horse, he is now proving himself as a sire of excellence.

2013 saw Annwn Park importing the mare KL Generale-321, bred by Kirsch Lipizzaners Germany, with the motivation being to help strengthen the stud's breeding program as well as the breed as a whole within Australasia. We have also incorporated the 4sz Mesohegyes mare line, which is extinct apart from the few representatives in Australasia, into our current genetics through the lovely mares 223 Lucca and 254 Londra. This particular mare line produces outstanding movement and trainability.

In March 2016, the Australian Lipizzaner Registry Inc. will be hosting Lipizzaner Accreditations and Evaluations with Dr. Jaromir Oulehla (former Director of the Spanish Riding School). A qualified Judges School will also be run over two days. Dr. Oulehla will visit Australia, New Zealand and Malaysia, accrediting in total some 50 Purebred Lipizzaner horses. Annwn Park will be hosting his NSW visit.

What do Charlemagne Ego Z, Capulet Ego Z, Concorde Ego Z, Cocaine Ego Z, Bravado Ego Z, Absolute Ego Z and Cartalme Ego Z have in common? All are hugely successful breeding and competing stallions talent spotted as youngsters by their visionary owners. Everything they promised in their prestigious genetics, they have delivered.

Concorde Ego Z

Charlemagne Ego Z

Cocaine Ego Z

Capulet Ego Z

Bravado Ego Z

Summersea must sell its remaining young stock. These exceedingly rare and internationally sought after bloodlines need no introduction...

ARIAL EGO Z - Rising 4yo filly (Air Jordan Z x Parco) 16.1hh. Just broken and a very user friendly honest ride for an amateur or professional. Quick and athletic. From the same dam line as Cartalme' Ego Z, Bravado Ego Z, Cocaine Ego Z, the 4yo Oaks Young Horse winner Ava, and so many more. Sold in foal to Parco. \$29K

CORDELIA EGO Z - Rising 4yo filly (Cor d' Alme Z x Parco) 16.2hh. Just broken and kind, honest, extremely athletic, sensitive and quick, plus flare. The only filly in Aus with this blood, and due to infertility of her GP sire, will remain that way. \$33K

LAFAYET EGO Z - 3yo (Lux Z x Carthago Z) with nice colt foal by Parco at foot, 16.2+hh. Stunningly beautiful Rose grey with soft, balanced and athletic movement, and super character. Would suit amateur or professional. \$30K

EGO CALEB YEARLING COLT (Camelot Ego Z x Ariel Ego Z) Mature - 16.2hh. A typical Camelot colt that will be keenly competitive. \$8,800

ACCOLADE EGO Z YEARLING - Only colt in Aus by Alme' Crack Z x Cordelia Ego Z (see above). Mature - 16.2+hh. Unique genetics in an Aus bred colt. Thoughtful, kind character. This incredible typey colt has had an injury. Please enquire.

CARTULLUS EGO Z - 3yo (Carthago Z x Parco - Lux Z - Calvin Z) Mature - 17.1hh. One-of-a-kind stallion that will see interest from OS. Exceptionally kind character in exquisite exterior that would suit the serious rider/breeder. Summersea has a strong and reliable history for producing international quality stallions. This colt is one of the best we have bred and will not disappoint. Please enquire.

2015 foals by Lux Z and Oberon Du Moulin.

Unfortunately the majority of stock have no video footage available. For serious buyers all effort will be made to supplement this however possible. We encourage visits to Summersea to view the available horses in person.

CERA PERFORMANCE HORSES

The focus of the breeding program at Cera Performance Horses has always been on the mare; after all it contributes at least 50% of the genetic makeup of the foal. Focusing on breeding a small number of foals of the highest quality each season Cera now boasts some of the best showjumping lines of modern times. Their foresight is starting to pay off with some very talented youngsters hitting the competition arenas around the country and in New Zealand. With Holsteiners once again topping the WBFHS rankings for jumping horses, it's obvious that Kerri at Cera Performance Horses is on the right track with her elite band of Holsteiner mares which descend from generations of proven 1.60m horses. From Cera Performance Horses you can purchase an un-spoilt purpose bred foal or youngster knowing it has the breeding and correct foundations to enable you to follow your dreams, however ambitious they may be. Like them on Facebook to keep up to date with the latest news.

ELLANBRAE PARK

Ellanbrae Park is a boutique stud breeding with exceptional imported and IFS mares by stallions including Rohdiamant, Rousseau, De Niro, and Glock's Johnson. We are producing foals of the quality that you find in the leading barns in Europe, utilising embryo transfer technology and frozen semen. We do not stand any stallions, instead carefully selecting each stallion to complement each mare, and we only breed with licensed stallions, mostly using frozen semen from Europe.

Our foals and young horses have ideal raising conditions on our beautiful rolling hills to give them the best chance to develop to their full potential. They are well handled and receive the highest quality care and nutrition from birth. We also have the facilities and team on site to produce them from embryo right through to FEI.

We currently have foals and young stock available for sale by Jazz, De Niro, Belissimo M, OO Seven, Dante Weltino, Charmeur, Chagall D&R, Everdale, Lord Deniro and Hilkens Nougat Cream.

EQUUS AUSTRALIA

Equus Echo ridden by Jess Brown, is a horse that is gaining a lot of attention in Europe at the moment. Recently placing 3rd in his first 2* Grand Prix - he is the product of a lifetime of passion and knowledge of both the Thoroughbred and the Warmblood and the training idiosyncrasies of different bloodlines.

We breed only a handful of foals a year, but in doing that, we can offer to the market, youngsters that have had the very best of handling, growth and education. Carrying the bloodlines of Higgins (by Heraldik x For Pleasure) out of mares by Voltaire, Calvaro and Lux.

Keep an eye out for the Higgins progeny stepping out this year if you don't already have one of your own.

FINCH FARM

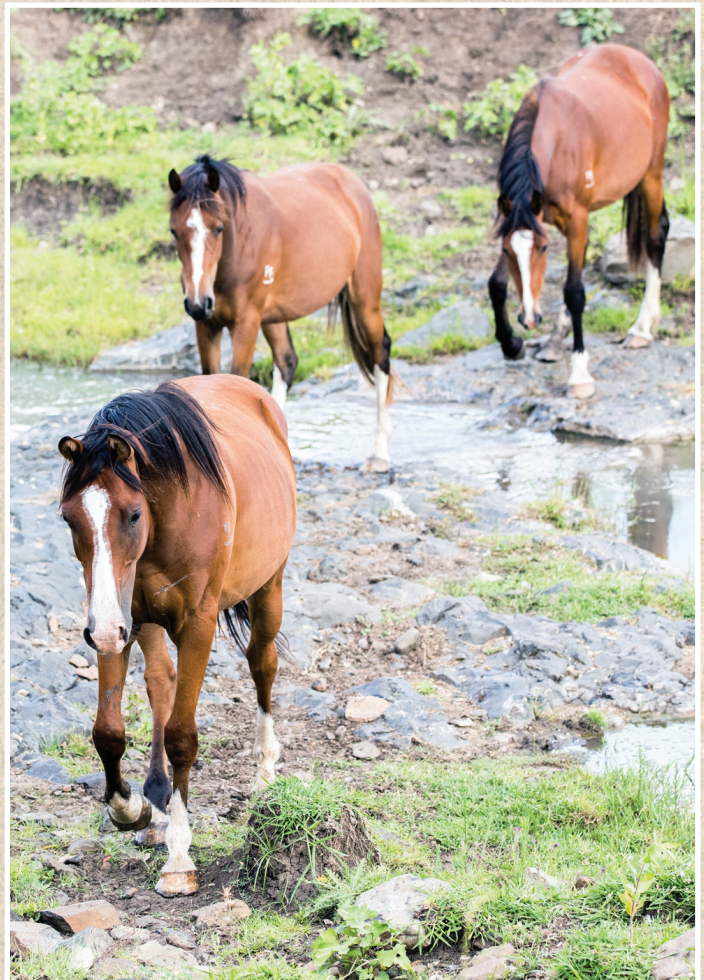

Think it is too far to travel to Toowoomba to see some of Australia's best horses? Well it is about 20 hours shorter, and a couple of thousand dollars cheaper, than the European alternative, and the best bit, is that our horses are just as well bred, better raised and they don't cost tens of thousands of dollars to get them home! You can add to that the fact that when you go shopping in Europe you can be very sure that the eagle eyes of the Euro Dealers have already made off with the cream of the crop.

The bloodlines on offer at Finch Farm include Casall, Stakkato, Calvaro, Calvin Z, Cassini II, Sandro Boy, Corrado, Tinka's Boy, Converter, Vivant, Mylord Carthago, Quidam de Revel, Galoubet, Contender, Cor de la Bryère, Almé and Balou du Rouet. Add to that the great broodmares, Vase and Tanagra, and our Thoroughbred mares with better jumping lines than the Europeans.

Finch Farm is excited about the arrival of the first foals by junior sire, Massimo Quality (imp). This four year old has a pedigree equal to any in the world - by Mylord Carthago and out of a Quidam de Revel / Galoubet mare. He has already shown that he can really jump, and his foals are exceptional.

Do yourself a favour. Enjoy a few days in beautiful Queensland, and find yourself the horse to take you to the top...

MADE IN AUSTRALIA

SUMMERSEA

As restful winter, with early nights and relatively small workload for a breeder, gives way to spring with it comes the onslaught of foals. Armed with torches, foaling halters, lists of emergency contacts, a world of patience and the wisdom of half a lifetime of foaling we brace ourselves. Seeing out each sleepless night with the very real irony that we deliberately set this up the year before and had no one to blame but ourselves for the fact it is 4am and we are covered in horse placenta.

In the last 7 or so years Australasia has seen an explosion of extraordinary jumping breeders set up, the majority breeding youngsters genetically as capable as that in Europe.

The Australian breeder does not breed purely for money. I think it starts with a vague intention of making money. But after the property, the feed, the mares, the semen, the dead semen, the dead mares, the vet bills, the injured foals, the bigger vet bills, the learning curve reality sets in. It isn't a world to get rich quick in.

It is a labour of love, an intent desire to be part of designing a creature made to jump. There is no question that each and every one of our foals will jump. It is not just the hours lost in deep conversation over a liquid nitrogen tank, selecting each sire and weighing up the potential crosses with available brood mares that make us sure. It is the cumulative decades of these conversations creating generations of purpose bred boutique creatures that makes us certain - we know our horses will jump with talent of their bloodlines.

And when our youngsters, and those of other Australian breeders also, prove themselves and that fact time and time again, why is the breeding industry disintegrating to the rapid trend of imported, pre-trained pre-packaged showjumpers? Why then do people travel to Europe to purchase horses? Not only does this devalue and disrespect those breeders who had the foresight and passion to produce sound, healthy, well grown, genetically equivalent youngsters, but it also removes equestrian income from the coalface that could go to Australian trainers, the training of future trainers and more young horse classes.

There is a serious argument that Australasian grown horses are healthier, sounder and more trainable purely due to the weather, space and easy environment that they are raised in.

Summersea has had the pleasure of watching many of its stallions and mares rise among the ranks of imported competition to win. One of the most notable mentions going to the progeny of the late Camelot Ego Z, who provided many rising stars with the means to hold their own against imported European pre-packaged horses at a fraction of that cost.

The great irony is that yearly we will have overseas enquiries about our stock because of their rare and talented bloodlines. We often wonder if that horse was then shipped to Europe, would it then be bought by an Australian at a 200% mark up to be brought back, now seemingly a better horse?

There is a trend to buck now. There is an industry with all the talent to create champions here in Australia. We urge all buyers to look within the continent for the benefit of themselves, and every breeder, trainer and supplier. You will find everything you need here, if you look to see it.

THE MAKING OF THE MODERN WARMBLOOD

From Gotthard...

...to Gribaldi

Christopher Hector

THE MAKING OF THE MODERN WARMBLOOD

From Gotthard to Gribaldi

From Gotthard to Gribaldi is the product of over 20 years of research by equestrian journalist Christopher Hector, in all the major breeding areas of the world. Over that time he has interviewed most of the more important breeders and breeding experts to produce a work that brings together – for the first time in the English language - the most influential performance horse stallions in all Europe's major breeding areas, from France to Scandinavia, through Germany, Holland and Belgium over the past 50 years. 144 Stallions are individually examined with pedigrees and photos, all of the major studbooks are profiled, and many of their key players interviewed. This is a work destined to become the standard reference for students of the warmblood breed.

Ellanbrae Park

Breeding- Training- Teaching - Importing

Formerly known as Statene Park (established by Olympian, Mary Hanna), Ellanbrae Park is a picturesque equestrian property in Macedon, Victoria. Our vision is to once again make this magnificent property one of the foremost dressage breeding, teaching and training properties in the country. With our exceptional mares and onsite breeding facilities, improved pasture, beautiful indoor and outdoor riding facilities, and a Grand Prix rider and her team based at Ellanbrae, we are set up to produce top quality dressage horses from embryo through to FEI.

Ellanbrae Jetsetter (iiu)

(Charmeur x Rousseau x Jetset D x Rubinstein)

Breeding:

We are breeding dressage foals of the quality that you will find in the leading barns in Europe. We consider our mare lines to be of the utmost importance and we breed with only licensed stallions, primarily using frozen semen. We are breeding with exceptional imported mares, and locally bred IFS mares. While much of our breeding program is focused on producing horses capable of reaching the top level in the sport of dressage, character and rideability has been as important in our selection of mares as movement and conformation.

We currently have foals and youngstock available by Jazz, De Niro, OO Seven, Charmeur, Everdale, Bellissimo M, Dante Weltino, Chagall D&R, Lord Deniro and Hilkens Nougat Cream. Save the cost of flying your new horse from Europe and come and see what we are able to offer here in Australia.
